

Penyrheol Cluster Transition Plan

Successful collaboration and effective learning, social and wellbeing transition has existed throughout the cluster for many years. This is based on a shared understanding of supporting the individual needs of pupils and the holistic needs of the local community.

Our Year 6 learners have always enjoyed a series of effective transition opportunities to support learning, wellbeing and social transition. The transition plan has more recently evolved to include continuity in learning via the 'golden threads' that connect the Year 6 and Year 7 curricula. This supports coherent learner progression. As part of Curriculum for Wales development, the alignment of assessment processes is now also a key area of focus.

The transition plan has been agreed by the governing bodies of each school within the cluster. In accordance with Welsh government guidance, the membership of the Penyrheol cluster includes:

- Gorseinon Primary School
- Loughor Primary School
- Tre Uchaf Primary School
- Pontybrenin Primary School
- Penyrheol Primary School
- Penyrheol Comprehensive School

The transition plan is in place with regard to Year 6 learners who will be transitioning to Penyrheol Comprehensive School in September 2023.

This transition plan will be reviewed in July 2023.
